Insolvency to Innovation
the five-year record

Special Shareholders Meeting
January 19, 2006
“Innovation,” argued Joseph Schumpeter, led to gales of “creative destruction” as innovations caused old inventories, ideas, technologies, skills, and equipment to become obsolete. The question, as Schumpeter saw it, was not “how capitalism administers existing structures,... [but] how it creates and destroys them.” This creative destruction, he believed, caused continuous progress and improved standards.

Three-Year Historical Performance

Historical Earnings (US$ Millions)

Historical Operations Cash Flow Less Capital Expenditures (US$ Millions)

ERP index is equal weights in Lawson, JDA, Epicor, QAD and Manhattan Associates.

BI/PM index is equal weights in Business Objects, Hyperion, Cognos, Actuate and Informatica.
License Growth

Annual License Revenues: The Growth Driver

Most Recent Quarter Organic License Growth (Adjusted for Acquisitions)

Note: Adjustments are based on recent acquisitions. Business Objects adjusted for 37 days of SRC acquisition, assumed annual revenue of $27.5 million, license revenue of $9 million or $750,000 per month. Scala licenses assumed to account for 27.3% of Epicor’s licenses (as was the case in preceding quarter), adjusted for 39 days since Scala was bought 39 days into the previous quarter’s quarter. IBS had 3 acquisitions with annual revenues of approx. SEK 200 million per year or SEK 50 million per quarter; licenses assumed to be SEK 15 million per quarter. RedDot license contribution unknown, but purchase price was EUR 43.6 million, assume two times revenue price, so revenue of approx. $6 million per quarter, and license revenues of approx $1.5 million per quarter. Oracle growth rate is for application software, using Oracle’s reported figures plus the figures for PeopleSoft for the quarter ended September 30, 2004. Because of the PeopleSoft acquisition, the Oracle growth rate represented in this chart may be materially distorted. For information on any of the companies included above, please refer to published financial statements, quarterly press releases, and MD&A discussion on their respective websites.
Achieving Industry Recognition

Ventana Affirms Geac’s Product Development in Two Consecutive Reports

- Ventana Research, a leading Performance Management research and advisory services firm, conducted an assessment of more than 30 vendors and 70 products for its 2005 Performance Management Vendor and Product Scorecard.

- Ventana Research rated Geac’s MPC product suite the highest in every category of “align,” “optimize,” and “understand” – the strategic business processes that help companies manage their business performance requirements. Geac was the overall winner in the Ventana Research Scorecard with a score of 97.3%.
Innovation Index: Percentage of License Revenue from Newly Developed Products

Even with decreases in Geac’s development expenditures, Geac’s new product introductions and enhancements resulted in ongoing innovation and product development across major product lines.

- In Q404, the average enterprise application license deal over $150K was $231K, and in 2Q06, Geac had increased that figure to $294K.
- Between Q404 and 3Q05, Geac closed an average of 23 enterprise application deals over $150K, but in the past three quarters has secured an average of 34.

Incubating Creative Destruction – Business Highlights in FY05

- GPM license revenue increased 21.6%
- SmartStream license revenue increased 109%
- RunTime license revenue increased 810%
- Interealty license revenue increased 240.7%
- Libraries license revenue increased 16.8%
- Public Safety license revenue increased 91%
Creating Value for Employees

- In FY05, the Employee Stock Purchase Plan achieved over 25% participation in North America. At the offer price of $11.10, this represents gains to employees of $1.2 million, or 112.8%.

- In FY05, 1.38 million shares of Geac were granted to employees under the Restricted Share Unit plan. At the acquisition price, this represents $15.1 million.

- Stock options granted to employees will be worth US$36.9 million at the sale price.

- Selected leaders of the future were sent to Harvard Business School, Northwestern University (Kellogg Graduate School of Management), Wharton School of the University of Pennsylvania, and Queen’s School of Business (Kingston, ON) for executive education courses.

- In FY01, Geac generated US$142K in revenues per employee compared to $205K in FY05.
